No. 3/1/8/1114

Date : 20/8/1420 H

Mohammed Mosheal Al-Qarni Est.

Reference is made to your letter addressed to the General Director of Civil Defence ,dated 8/2/1419H concerning your request to license a new material for fire extinguishing called (Bayrogen) . We advise you that after testing the said material in fire suppressing , it was found out convenient for use only in closed and undwelled areas . However since its hazards to health and environment are less than the other acceptable alternatives used in fire fighting , we have no objection to market the mentioned material as specified above .

Best regards

General Director of Civil Defence
